

About Humanity Unites

Humanity Unites is a collaboration of volunteer individuals whose purpose is to inspire and empower communities to unite as one, end conflict, and cause harmony within our local and global communities.

Humanity Unites is a non-profit, non-partisan, non-political and non-sectarian organization. We believe that everyone has the potential to realize the importance of unity and create

harmony based on opportunities that inspire them and call them forth to committed action!

We believe that, before we are Muslims, Christians, Jews, Republicans, or Democrats... we are human beings who can make a difference and end human suffering.

In order to make a lasting impact, we believe that our purpose is achieved through humanitarian and transnational projects. Our mission is to inspire individuals to create proactive and non-violent solutions for ending local and global conflict.

Our opportunities consist of providing forums for solution-oriented conversations, actions, and projects in which people think and create freely based on being inspired versus fear and obligation. These opportunities are focused on each individual taking responsibility in causing harmony in the world by connecting through our humanity and realizing that:

"The Human Family is one body with many parts. Creations arising from one unseen essence. Any Harm to any part summons an awakening, a dis-ease and a healing response from all parts. One who fails to feel the pain of others cannot be called truly human".

--Saddi, the Persian Poet of the 13th century

We invite you to join our team! Whether you would like to get involved through the various initiatives that Humanity Unites offers or you would like to present your own initiative, we welcome you to take action and be our partners!

Supporting Humanity Unites

Humanity Unites is a non-profit organization committed to creating opportunities for individuals, communities, and the world to realize the united power of humanity.

Individuals, groups and businesses can support Humanity Unites through a variety of ways, including:

Become a Member:

Become a member of Humanity Unites and support our ongoing relief and prevention efforts. Membership is \$25 per month and includes free admission to all the sponsored events.

Become an Individual or Corporate Sponsor:

To support Humanity Unites and its efforts in causing unity through individual or corporate sponsorships, please contact info@HumanityUnites.org to obtain a sponsorship package.

Become an Ambassador:

Individuals seeking and demonstrating leadership within their communities have the opportunity to become an Ambassador of Humanity Unites. After an evaluation and interview, selected individuals will represent their specific interest groups and will bring forth ideas and ways of involvement in order to cause unity in the larger community.

Become an Advocate:

Individuals can advocate and participate in Humanity Unites initiatives on a project by project basis.

Become a Partner:

Individuals and communities with synergetic missions can present their ideas and collaborate with Humanity Unites on projects and/or seek support.

Become a Walker:

Participate in our annual Walk For Unity and show your stance for creating harmony in our communities. Please visit www.WalkForUnity.org for information.

How Humanity Unites

Humanity Unites is committed to creating and supporting opportunities that inspire individuals to take action locally and globally. Our opportunities consist of prevention and relief efforts. We welcome individuals who have initiatives aligned with the mission of causing harmony and invite you to bring forth your ideas! Our past efforts include:

Past Relief Efforts

Humanity Unites for Sudan

Humanity Unites held a fundraiser event in May 2007 for refugees in the Darfur region of Sudan. This event was in partnership with and support of Relief International (www.ri.org). The proceeds raised by this event were donated to Relief International in support of their efforts in building water filtration systems and shelters for women and children of Darfur.

Past Prevention Efforts

Walk For Unity

The Walk For Unity is an annual event by the community and for the community and in collaboration with the Irvine Global Village Festival. The festival is presented by the City of Irvine Community Services Department and celebrates diversity by featuring over 7,500 people and 50 cultures. The Walk For Unity is a public display of harmony and unity amongst people from all walks of life who are committed to and stand for causing peace, unity, and harmony locally and globally.

Let's Talk Unity

To keep awareness alive and living in the community, Humanity Unites hosted an interactive dialogue forum between community members. The event, called "Let's Talk Unity", was held in April 2007. The main focus of this forum was to invite members of the academic, civic, and faith community to discuss opportunities and seek proactive solutions in causing unity and harmony in our local and global communities.

Makes Lasting Impact

Inspi(RED)

Humanity Unites, in collaboration with Irvine Prevention Coalition and through the proceeds of Walk For Unity 2006, awarded a grant to the Sigma Chi Fraternity. The fraternity partnered with the UCI Health Education Center to host an interactive health education seminar on AIDS related issues in January 2007. This seminar provided UCI students with AIDS training to better understand the nature of the HIV virus and to learn how to protect themselves. The seminar also provided students with a meaningful way to unite, get involved within both their local and global communities, and help AIDS victims.

Peace Starts With Me

Humanity Unites, in collaboration with Irvine Prevention Coalition and through the proceeds of Walk For Unity 2006, awarded a grant to the Golden West College "Peace, Mind, & Body" club in support of the "Peace Starts with Me" film. The film's primary goal was to explore the cause and effect perspectives of the April 2007 Peace Conference held at Golden West College showcasing the views of various attendees and organizers. Through the making of the film, students were inspired and connected with humanity by exposing grassroots efforts towards local change on a community college campus.

Stand Up For Darfur

Humanity Unites, in collaboration with Irvine Prevention Coalition and through the proceeds of Walk For Unity 2006, awarded a grant to the UCI Darfur Action Committee in support of the Stand Up for Darfur rally held in May 2007. The rally raised awareness to the university and southern California community to stop the genocide that rages on in Darfur, Sudan. This student effort united the southern California region beyond its immediate university community to other chapters and universities throughout southern California.
